Similar encouraging reports have been received from Arizona and Wyoming."

Tonopah schools are preparing for a record breaking year and the problem of taking care of pupils is becoming serious. This is especially noticeable in the first grade and the freshmen class of the High school. The High school is pressed for books and supplies, which will arrive during the latter part of the week.

During the night a common grave was prepared for the men and a smaller one for the German officers.

UNANIMOUS VOTE FOR HON. SAM PLATT

Harmony in State Convention Results in Strongest Republican Ticket Ever Offered

(Special to The Bonanza)

RENO, Sept. 6.—The Republican state convention went on record yesterday afternoon in the most hearty and unanimous fashion for Platt, Roberts and Moran, after taking care of the minor business that was reported early in the day. From start to finish there was nothing of a dissenting order and the utmost accord was manifest in every movement. Senator Morehouse delivered the opening address in which he placed Nevada on record as the strongest supporter of the Hughes candidacy.

At the conclusion of the nominations there was a general exchange of congratulations in which the defeated candidates joined and assuring

the delegates that they would lend their sincere and earnest support to the ticket with the object of sweeping the state in November.

The Democratic state convention was a perfect storm center all day owing to the protest of a majority of the counties to the assumption of Nye and Elko counties in dividing the offices. Charges of harter and trade were freely made, but the steam roller paid no attention to the disgruntled delegates and they went through with the announcement of the nomination of Sanders of Nye county for the supreme court. The remainder of the ticket was cut and dried, including Pittman for the Senate and Calne for Congress.

CONFERENCE ON REVENUE IS THE LAST ACT OF CONGRESS

(By Associated Press.)

WASHINGTON, Sept. 6.—The only important work standing in the way of adjournment, which probably will take place tomorrow, was smoothing out today the House and Senate differences in the emergency revenue bill providing for raising \$205,000,000 annually, the creation of a tariff commission and other important economic principles.

The bill passed the Senate last night and went to the conference today after the House had named conferees. It is believed their report will accept most of the Senate amendments, including those adopted yesterday directed against the allied interference with American trade.

At the outset the conferees encountered obstacles which will make improbable final action before tomorrow. The House conferees insist on a tax

on refined copper, and that the original munitions tax take the place of the Senate substitute. Another obstacle is the Senate's permanent annual appropriation for the tariff commission.

There has been a lively fight against the bill, wherein there have been charges and recriminations on both sides. The vote to take up does not necessarily forecast delay in the adjournment of Congress. It is planned to adopt a concurrent resolution fixing the adjournment immediately the revenue conferees indicate when they reach an agreement. This would check the attempted filibuster on the corrupt practices bill and end debate.

The Senate decided to take up the Owen corrupt practices bill, which would greatly curtail expenditures and impose heavy fines for violation of its terms.

the bandit and his followers. This is the statement of Funston. There has not been any agreement between the American and Mexican military men for concerted action against Villa. Whether the expeditionary force takes part "is up to Pershing," says Funston.
